FUEL SAVER

HITACHI

Wajax is proud to provide customers with the real fuel savings of the Hitachi Zaxis Dash-3 Excavators while still achieving the same or better performance than previous models.

The Isuzu Tier-3 engines use a cooled Exhaust Gas Recirculation (EGR) system that lets part of the exhaust gas mix with the suction air for recombustion. The results shrink fuel requirements further yet in no-load and light-duty operations, thanks to an electronic governor that maintains constant engine speed despite changes in load.

Outstanding productivity on less fuel, Hitachi Zaxis Dash-3 Excavators put more coin on your bottom line.

Now that's good news.

Visit a Wajax branch soon for the complete story.
