

Premier Selinger accepts resignation of five Cabinet Ministers, appoints five new Cabinet Ministers

Two weeks after the 2014 Manitoba Municipal elections, where Winnipeg, Brandon and many other Manitoba municipalities transitioned to new Mayoral leaders, and change has come to the Government of Manitoba. On November 3, 2014 five Cabinet Ministers resigned, and subsequently prompted a Cabinet shuffle at 450 Broadway.

In an historic move, five sitting Manitoba Cabinet Ministers (Ministers Swan, Howard, Oswald, Selby and Struthers) simultaneously resigned their positions. Later that day Premier Selinger appointed four new NDP MLA's, replacing the departing five MLA's and their respective portfolios. In addition, Premier Selinger moved portfolio's around within his Cabinet.

On page two of the Heavy News Weekly we have outlined the Cabinet changes, the new Ministers involved, the new portfolio's existing Cabinet Members will hold, and have also shared a link to the Members of The Legislative Assembly of Manitoba contact page

The House of the Legislative Assembly of Manitoba adjourned the 3rd Session – 40th Legislature on June 12, 2014. No date has been publicly confirmed for the Speech from the Throne, traditionally held in fall.

The MHCA is monitoring government changes and developments; we will continue to alert MHCA members to important matters as they come forward.

In this edition:

MHCA and WORKSAFELY PROUD TO ANNOUNCE TWO NEW STAFF MEMBERS: MEGAN FUNNELL AND TERRY DIDLUCK

Megan Funnell Marketing Communications Specialist

Megan Funnell is a writer, designer, photographer, and now officially the Marketing Communications Specialist with MHCA. A recent graduate from the joint-degree Creative Communications program, Megan's diverse skillset in PR, marketing, advertising, journalism, photography, graphic design and media production has allowed her the opportunity to combine her love of strategic thinking with creative execution.

Throughout the course of her academic career, Megan actively freelanced as an independent communications specialist – meeting with and offering small businesses and industry professionals her ever-evolving skillset. Her client list ranged in industries - from retail to construction to the financial industry - which allowed her the opportunity to build up a large network and take on even larger projects.

Now a specialist in strategic planning, branding, and marketing communications, Megan reflects on her time as an independent freelancer and strongly encourages others to follow a similar path. And looking forward, Megan is honoured to bring her skillset to MHCA's table and help make a positive impact for all the businesses, communities, and individuals out there that make Manitoba home.

Megan can be reached at the MHCA office via telephone at (204) 947 - 1379 or by email at mfunnell@mhca.mb.ca

Terry Didluck, CSO, OHSAS/ISO/COR CA Safety Advisor, Northern Region

Terry Didluck joined the WORKSAFELY team in October 2014 with extensive experience with Safety, Health and Environment Management Systems - both as a production supervisor and safety supervisor/facilitator.

Terry's skillset ranges from implementing, monitoring and correcting systems and facilitating risk management/training modules to managing both teams and individuals. He is very passionate about coaching others and helping business owners and stakeholders achieve their risk management goals.

Terry is a long-time resident of Thompson and will be based in the northern region. He will use his experience with SHEM to help our industry in the north become sustainable and profitable while achieving Safe Production targets in all business aspects.

Terry's dedication to helping others manage risk is evident among his peers and amongst those who know him. He believes that there will always be an element of risk in the industry but with good training and awareness, risk can be managed to achieve zero harm.

Terry will promote the CORTM program, perform audits, follow up with organizations and will be committed to training management teams and employees.

Terry can be reached in the Thompson and surrounding area via telephone at (204) 939 - 0472 or by email at terry@mhca.mb.ca

MHCA 2015 Equipment Rental Rates & Membership Directory COVER ART COMPETITION

Welcome to the MHCA 2015 Equipment Rental Rates & Membership Directory Cover Art Competition!

We invite you to create the eye-catching cover art that makes this Directory stand out! Check out all the rules and regulations below:

Eligibility

Entrants must be current members of the Manitoba Heavy Construction Association. The contest's Artwork Guidelines states that considered submissions must be two-dimensional original, hand-rendered art (acrylic, oil, watercolour, etc.), three-dimensional works (sculptures/carvings), or photography. Submitted artwork cannot have already been previously published or reproduced in any format or exhibit. Also, the artist should not have future plans to sell, publish, reproduce or exhibit the artwork.

If the Contest Entry contains any material or elements that are not owned by the entrant, and/or which are subject to the rights of third parties, the entrant is responsible for obtaining, prior to submission of the Contest Entry, any and all releases and consents necessary to permit the use.

MHCA and its publisher, Lester Communications Inc. hold themselves harmless of any use of submitted materials claimed to be the ownership of the party for which made submission and any and all legal issues arising with copyright of said materials will be between the property owner and the submitting party.

To enter, each artist can submit 1 (one) piece for the contest.

How to Enter

Entries must be received by **Friday, January 9, 2015**. Late entries will not be considered due to the production schedule of the MHCA Directory. The winning entrant will be contacted shortly after the closing date.

Entries must be submitted in the following formats: **PDF, EPS, or TIFF files**. JPGS are accepted but other formats are preferred. **All files need to be high-resolution 300 dpi images at 6" W by 9" H. CMYK or Grayscale are acceptable.**

Entries must be accompanied with an official entry form, containing the following information:

- MHCA member company name along with work address, telephone number and email address
- A short artist's biography
- Description of the artwork, including dimensions, medium and title

**MHCA's
2014 Cover
Art designed
by:**

SMS
Equipment,
Roy Lapa &
Greg McKee

Conditions of Entry

By entering the MHCA Directory Cover Art Competition, the entrant agrees to the following conditions:

- The theme of the 2015 Directory must reflect heavy equipment
- The winning entrant agrees to permit MHCA to publish his/her own artwork on the cover of the 2015 MHCA Equipment Rental Rates & Membership Directory, which will be distributed across Manitoba
- The winning entry becomes the copyright property of MHCA
- The winning entrant agrees that MHCA has the right to reproduce the artwork for its corporate website and on promotional materials associated with the MHCA Equipment Rental Rates & Membership Directory
- The winning entrant will be publicly credited in the MHCA Equipment Rental Rates & Membership Directory as well as the official website and any other promotional materials that features the artwork
- No copyrighted images, products, or company names can be part of the submitted entry
- Ensure that all photographs used are in compliance with current Workplace, Health & Safety Regulations

The Winner

The winning entrant of this competition will have 'bragging rights' for the year of 2015 and will receive a giftcard valued at \$250 from "The Keg". The winning selection process will take place via a panel of official MHCA judges. If no suitable cover art design is submitted, MHCA reserves the right to choose the 2015 cover art.

Entries can be sent by mail or email to:

MANITOBA CONSTRUCTION SECTOR COUNCIL APPOINTS NEW EXECUTIVE DIRECTOR CAROL PAUL

Carol Paul is the newly appointed Executive Director at the Manitoba Construction Sector Council (MCSC). Carol was formerly the Director of Education and Training for the council. Carol holds a Masters in Adult Education from the University of Manitoba and is a Certified Essential Skills Profiler through Bow Valley College.

She is past chair of the Manitoba Prior Learning Assessment Network. Carol facilitates courses for the Certificate in Adult and Continuing Education Program (CACE) at the University of Manitoba. She taught English Literature and Alternative Education at the University of Winnipeg. Carol was a founding member of Urban Circle Training Centre where she developed programs and taught in the Aboriginal community for 14 years.

At MCSC, Carol is responsible for research, curriculum development and coordination of program delivery. She develops and facilitates interactive blended learning experiences using the Storyteller learning management system.

Carol regularly speaks at national conferences and industry training events on adult education, facilitation, coaching for industry leaders and leveraging differences in the workplace.

For more information about YOUR sector council - the Manitoba Construction Sector Council - visit: <http://www.mbcsc.com/>

We understand Construction Law

Pitblado Law is a progressive business law firm offering cost effective solutions and advice to the construction industry.

We combine our construction knowledge with corporate and commercial lawyers to provide legal advice during the negotiation, development, financing, insuring, construction, and warranty phases of projects, from large real estate projects to high speed communications infrastructure projects.

Our litigation lawyers in this area have appeared before all levels of the courts and in alternative dispute resolution forums.

Let us help you with:

- Contract negotiation and preparation
- Defense of claims for negligent engineering, procurement and construction
- Construction bonds and insurance
- Contract dispute resolution
- Claims preparation
- Tender advice
- Builders' liens

What's Driving Growth?

By Peter Hall

Vice-President and Chief Economist

November 5, 2014

Recent financial market turbulence has stirred up the fear factor again. European weakness has revived concern about the direction of global growth and the world's vulnerability to the structural fissures created by the Great Recession. To the bystander, it's another *déjà vu* of nascent recovery taking back seat to a best-case scenario of moderate growth. Are the planet's growth drivers being held back by the gears that are stubbornly slow and even stuck, or will they prevail, powering the world economy into its next exciting growth phase?

Naysayers have lots of fodder. Italy is back in recession, and German growth has faltered. France has 'stabilized' at zero growth, and is struggling with political impasse. The setback is serious, but the cause remains a bit of a mystery. The Russia-Ukraine conflict is a plausible cause, although it hasn't moved business and consumer confidence far off the recent high perch. Pre-existing fiscal and financial weaknesses are more an effect than a cause of Europe's re-weakening. Key policymakers and a bevy of respected forecasters see Europe's current situation as temporary, and expect growth to rise again in short order.

What of renewed slowing in emerging markets? The big ones are a mixed bag. Brazil is suffering under slower investment, pervasive infrastructure bottlenecks and policy uncertainty, with its negative influence spreading to the rest of the continent. Russia's economy has stagnated in the wake of tightening Western sanctions. On the other hand, India's prospects have brightened somewhat with the election of the Modi government; there's good reason to believe that the reform agenda will be revitalized, rekindling business investment and key infrastructure projects. China is bumping along, awaiting a revival in global trade. If that happens, and it already seems to be underway, then 8 per

On the other hand, India's prospects have brightened somewhat with the election of the Modi government; there's good reason to believe that the reform agenda will be revitalized, rekindling business investment and key infrastructure projects. China is bumping along, awaiting a revival in global trade. If that happens, and it already seems to be underway, then 8 per cent growth, our forecast for 2015, is quite possible.

So far, these factors aren't driving growth; they're being driven by it. Is there a driver? There is, and it just happens to be our number one customer. US leading economic indicators are rising, and now the lagging indicators are joining the fray. Second, the US is showing plain evidence of pent-up demand in housing, consumption and business investment. Few factors give greater credence to the sustainability of growth than pent-up demand. But there's more: If pent-up demand means that consumers and businesses have to get out there and spend, a third critical development means that they actually want to. For the first time in five years, confidence has returned to levels consistent with sustained economic growth. This movement is especially significant given long-entrenched global pessimism.

The list of reasons goes on. A fourth is lower growth-drag from government austerity. A fifth factor is the move toward monetary tightening. Tapering is fast turning into the need for higher interest rates, a direct result of higher growth. A sixth factor is a weaker one, but it is notable that most analysts concede that higher US growth is now here to stay. EDC's Fall 2014 Global Export Forecast calls for the US economy to accelerate from 2.2 per cent growth this year to 3.6 per cent in 2015. This is enough to drive world growth from 3.2 per cent this year to 4 per cent in 2015, launching the next planet-wide growth cycle.

This is great news for Canadian exporters, but it doesn't guarantee growth. However, the news gets better. Tightening US monetary policy suggests that the Canadian dollar will remain weak. And in spite of competitiveness concerns, exports are rising enough this year to suggest 10 per cent growth, and an added 6 per cent in 2015. This in turn will spur business investment, lifting Canadian GDP growth to 2.8 per cent in 2015.

The bottom line? US consumers and businesses are back, and this is already translating into solid Canadian export growth. It has been a long time coming, but there is more. Knock-on effects of US growth will soon translate into higher activity in other OECD economies and in emerging markets. The driver is the US, but the rest of the world is largely in gear. It will be critical for Canadian exporters to make sure they're in gear too.
