

Pulling Wire Through a Conduit

Facility:	Written By:	Approved By:	Date Created:	Date of Last Revision

Hazards Present:	PPE or Devices Required:	Additional Training Required:
Debris in the eyes	Eye protection	
Pinching	Hand protection	
Slivers		

Safe Work Procedure:

1. Pull a fish tape through the conduit
2. Connect the wires to the fish tape with electrical tape
3. Use a lubricant if required and apply it to the wire according to the manufacturer's instructions
4. Pull the fish tape through the conduit until there is sufficient wire at the device box.

If an emergency situation occurs while conducting this task, or there is an equipment malfunction, engage the emergency stop and follow the lock out procedure

REPORT ANY HAZARDOUS SITUATIONS TO YOUR SUPERVISOR
