

Repairs and Servicing

Facility:	Written By:	Approved By:	Date Created:	Date of Last Revision

Hazards Present:	PPE or Devices Required:	Additional Training Required:
Equipment failure	Gloves	
Collision	Safety Glasses	
Pinch points	Steel toed Boots	

Safe Work Procedure:

Walk around machine to check for tire damage, vandalism, any loose parts, or any other damage
 Check engine for:

- A. Any frayed or damaged belts
- B. Any damaged or leaking hoses
- C. Engine mounting bolts are in place, tight and not damaged

Check all fluid levels (some fluids may require engine to be on, check manufacturer recommendations)
 Get into vehicle using 3 point contact method. Check for fire extinguisher and turn on engine
 Check all gauges. Ensure that:

- A. Oil pressure is normal
- B. Temperature is normal
- C. Hydraulic pressure is normal (if gauge is applicable)

Put machine in reverse to ensure back up alarm is working
 Do another walk around to check all lights
 Check brakes
 Fill out inspection report

If an emergency situation occurs while conducting this task, or there is an equipment malfunction, engage the emergency stop and follow the lock out procedure

REPORT ANY HAZARDOUS SITUATIONS TO YOUR SUPERVISOR
