

Confined Space Entry – Incident Response

<b>Facility:</b>	<b>Written By:</b>	<b>Approved By:</b>	<b>Date Created:</b>	<b>Date of Last Revision</b>

<b>Hazards Present:</b>	<b>PPE or Devices Required:</b>	<b>Additional Training Required:</b>
Claustrophobia	Steel toed boots	Confined Space Entry Training
Inhalation of chemicals / toxins	Eye protection	First Aid
Potential death	Hand protection	CPR
Asphyxiation	Fall arrest and quick retrieval	Confined Space Rescue Training

**Safe Work Procedure:**

- 1) Stop and clear all work in vicinity and ensure that no workers enter the confined space.
- 2) DO NOT attempt rescue if not properly trained (see additional training required)
- 3) Ensure trained confined space standby team is present or call 911.
- 4) Secure the site against further danger or injuries.
- 5) Designate a worker to wait for emergency responders and lead them to accident area.
- 6) Hoist injured worker to surface using approved confined space rescue apparatus.
- 7) Commence First Aid until relieved of responsibilities
- 8) Begin incident investigation

***If an emergency situation occurs while conducting this task, or there is an equipment malfunction, engage the emergency stop and follow the lock out procedure***
